## ETHIOPIA: UNITE TO BEAT EVIL FORCES TO MAKE A BETTER FUTURE YOURS

Meles Zenawi & Co, either miscalculated a failure of Judgment, or they have underestimated the Patriotic Ethiopian people: a failure of Leadership.

 By: Dr. G Bekele - 3 February 2011 

They are badly accursed in heaven and on earth, a catastrophe for the human race. They are the viruses of the 21<sup>st</sup> century generation. They are the plague of the generation and the bacterium of all time. Their history was and always will be stained with the worst treachery and the very worst kind of treason and falseness and also lying. They are the model of debasement and also degradation. "They" of course are; Aite Meles Zenawi and his cronies whom we all routinely recognize through the excoriating language of their enemies: all of us of course; the Patriotic and brave Ethiopian People.

The Man who is "the Source of All the Misfortunes" of our Country; Ethiopia Must Go & Go Now, Come Hell or High Water!

My fellow Ethiopians, if ever a man debauched a nation, the Ethiopian nation has been debauched by Meles. If ever a man deceived a nation, the Ethiopian people have been deceived by Meles. The world will be puzzled to decide whether he is an apostate or an impostor, whether he has abandoned good principles, or whether he ever had any? He will be remembered in Ethiopian history as a mean-spirited, low livered fellow...there could be no question too; that he would sell his country at the first offer made to him cash down that he already started doing. A more contemptible, cowardly, unfeeling dog does not exist than this Prime Minister with vices and weaknesses of the lowest and most contemptible order. Therefore, my country compels me, to expose such villainy. This grand impostor, this loathsome hypocrite, this detestable traitor, this opprobrium of mankind, this landscape of iniquity, this sink of sin, this compendium of baseness who now calls himself Ethiopian Prime Minister will live as a hypocrite and die as a traitor. This rigid fanatic, ambitious, selfishly partisan and sectional turncoat with too much hates for his country Ethiopia and too little commonsense will either die a traitor or a mad man. He is the most meanly & foolishly treacherous man I have ever heard of. Every drop of blood in that bad and ruthless man's veins has eyes that look downward.

There is not a man in Ethiopia so perfectly hated by the people as Meles Zenawi. Never was ability so much below mediocrity so well rewarded. The poor and innocent Tigray population thought he was a man of unparalleled and splendid abilities but found him to be untrustworthy, wicked, racist, treacherously evil and utterly corrupt man. He is, like almost all the eminent men and women in TPLF/EPRDF, only half educated. His morals, public and private, are too loose. He is certainly the basest, meanest scoundrel that ever disgraced the image of God, nothing too mean or low for him to condescend to. He is a creator of wicked schemes and a self-made man who worships his creator: Himself. This is a battle that we, the true children of Ethiopia can no longer tolerate and cannot afford to lose the battle. Hence now is the time to stand up, be counted and unite to beat him and also beat the hell out of his evil forces that have been slaughtering our poor people. He almost buried 80 million Ethiopians in the mirth and deep-shag merriment. The guy is a single-handed sensation, the political worlds of Houdini, a one-man galvanize of moral outrage that can only be good for one's tubes. He has one principle that of self-interest. He has also only one desire, the silly desire to insult his own people and his country. He certainly belongs to the school of insult, lying, hypocrisy, cowardice and treachery. Sad!

This Prime Minister is nothing more than a well-meaning baboon "The Original Gorilla" about as intelligent as a human being. What a specimen to be at the head of our affairs now too? To kill and betray own political allies, loot and wreck the Ethiopian economy and history clearly reveals a depth of infamy never previously reached. This "wretched rattle-patted cave-boy" from Adwa, posing in vapid vanity and mouthing resounding rottenness is destroying our beloved country Ethiopia and blackmailing our history. He is a totally broken down peddler, a notorious liar and disturber of the public mind. He divided the nation, putting Ethiopian tribes against each other, incited hatred up and down the country and recruited demons to ignite fires among churches and religions. He has now unashamedly imposed an Albanian inspired totalitarian rule over Ethiopia, forcefully silenced opposition leaders like Ms Birtukan, weakened the entire opposition parties & free press. He lied out of every pore in his skin to the west to destroy Ethiopia.

Therefore, if I dare to call him, s.o.b, I am not using profanity but am referring to the circumstances of his birth. How long God allows, this absurd man-eater and country destroyer wild monkey to dance on our chest, our gallant Ethiopian martyrs, thousands of Ethiopian soldiers' who fought and died for his own region and political activists' graveyard? An extremist Marxist who pretends to have taken up free-market economics to fool the World Bank, IMF and International Community is alleged to have amassed millions of our money, Loan and Aid monies for his own benefit and put in foreign stock markets. This is at a very crucial time when our beloved and troubled country Ethiopia is going through all sorts of domestic problems of unimaginable proportions. Therefore, he should not at all be allowed to continue with that adjectival authority, pusillanimous and uncertain as he pictures the darkness over Ethiopia. Do you think we will ever trust this s.o.b with a striking resemblance of a demented goat? I say, "Never trust a sold out Shaebian mercenary & western agent with short legs brains too near their bottoms". It is not just a bit of tongue in cheek fun for me to use Meles's language in my article. He is a hell of a devil isn't he? Hence I decided to use the language he clearly understands well.

Therefore, if this little devil is not told what he is, and stopped now, his evil empire will grow bigger, nastier and his brutal regime will loom for many more years to come. Thereafter, it will probably be good-bye to mother Ethiopia forever. He held onto power posing as a real enemy to Eritrea when in fact he, his cohorts and bandas did the dirty job to favour Eritrea and Eritreans to date. Meles is a remarkable survivor, a ruthless and reckless western agent with political nouns to dodge the bullets. He is a tarnished and discredited leader but remained in charge of TPLF and through EPRDF too, ruled our country by force. Evil, wickedness, malevolence, sin, iniquity, inequality, vices, racism, ethnicity, division, hatred and immorality have spread in our beloved country Ethiopia since these TPLF viruses infected the political system. How cruel really and truly, they have been too? How disorganised, disunited, divided and stupid we all have been too? Good God, I had long seen a big country in the hands of a few shrewd, crafty, covetous men, thugs, thieves and child-killers under whose "Pigeon-Management", one of the most lovely and desirable sections of Africa remained a comparative desert with only few sky-scrapers built for Al Amoudin and TPLFites' private businesses to control the entire economy to try to demoralise the nation, a looting and begging ground, a disease factory, a killing field and a battle ground. They are the most extraordinary collection of sturdy creatures ever established to act as a paltry screen to a rotten government. They have become such a very feeble bunch in comparison with some of their unpredictable international brethren and their predecessors who were all nationalists. This "hardcore thugs bent on destruction" that we are perennially, warned about are destroying the establishment. These are without exception, the most notorious liars in all our history.

They lied out of every pore in their skins to the international community and begged Ethiopians and foreigners for monies to send our brothers to that self-made war to die. At the end, systematically auctioned our sovereignty and left us land-locked. This Prime Minister has a lot of explaining to do. He must pay the prices. Their blithe regard for the interests of the war victims, Ethiopia and Ethiopians in general is an example of their unfitness for such public service and office. I must therefore confess that my view of him as a man at the pinnacle of respectability took a severe blow after I met him face to face years ago for a televisive debate during which he unashamedly shoved many important questions under the carpet. Thereafter, I found him to be anti-Ethiopian of the worst kind, a self-made Shaebian agent, a hired western agent, a traitor & a thoroughly unpleasant character. I wonder why TPLFites supported a enemies' agent for 20 years?

Furthermore, after witnessing his persistence to conniving with Ethiopian enemies, I found him to be a mentally unbalanced little twit and sod. He is also a mad man in a "full transparent manner" to hi-jack TPLF's Central Committee marshalling his ill-advised supporters to defy and reject the foundation of an Ethiopian state. "Greater love has no man than this, that he lay down his own friends for his life". Massacring innocent and peaceful Ethiopians in Addis, Awasa, Gambella and other regions for exercising their God given inalienable rights has left me with feelings "more of sorrow than anger. No one should ignore the death of any human being. These are the sort of weaknesses and deliberate offences that have a significant adverse on the Ethiopian people substantially affecting the public view of the integrity of this government. Right-minded people could not have ordered for such barbaric acts. It seemed the Ethiopian people are on trial and the whole system of this government is weighted in favour of Eritreans, few Tigrians and against all the other Ethiopians. These men must be sick, really sick & clinically insane.

Hence I would like to urge all loyal Ethiopian Ministers, Ambassadors, Military Generals, and members of Parliament under this regime, moreover too, the opposition political leaders and all officials concerned to join the majority of the Ethiopian people, to rise and stand up against these few traitors to save Ethiopia and Ethiopians from the hands of her home-grown enemies and foreign leaders who appease these dictators. In this process too, I also ask EPRDFites on behalf of all Ethiopians, to immediately "resign with dignity" before it is too late. Otherwise, they too will be brought to justice if and when the moment of truth arrives in our country, which now looks inevitable. The Ethiopian people will continue to fight the evil and regain what was theirs. It is regrettable though that Meles, the TPLF or EPRDF would not have pursued its destructive and anti Ethiopian policies if there were no willing creatures like the Prime Minister around and that many Tigrian and other Ethiopian intellectuals had strongly spoken out when the Ethiopian flag; the symbol of our pride and freedom was "desecrated" by this Shaebian agent. These are the mad people who has been looting and destroying our country Ethiopia for the past 20 years. Hence time is up for them to be challenged by force if at all necessary.

Talking of the badness of this government, where nothing but wickedness and wicked men and women command the king, let us analyse the other small-minded, insignificant TPLF weirdoes like that Dr Teketel Hailemariam (THM), Yared Hailemeskel, aka Kulfo, and the two-faced Girma Kassa of Atlanta Georgia who is very busy right now advising the public in one anti-Ethiopia discussion forum not to hate Meles and protest against his regime saying there are no opposition leaders capable of leading us and to take over the affairs of our country. These hired cadres are "Political Street Walkers" accosting men with and fake smiles when approached, is like the silver fitting on their coffins. He thinks that we all need to go into the bushes armed like the TPLF, to train as the leaders of our country. Not only that, he also thinks that President Obama would not help the Ethiopian people.

Such greedy Hoddams and opportunist creatures made their conscience not their natural guides but their accomplices. Their crimes are the only great things about them, and these are contrasted by the littleness and insignificance of their devious motives. They too are wicked tyrants, tricksters, visionaries and bloody deceivers. Their reasons in bombast, prevaricate in metaphor, and quibbles in heroics. With their boss, they are the "Laurel and Hardy" of the third world. Hence they too must be challenged & stopped.

My fellow citizen, Aite Meles Zenawi, is renowned to be a born and a systematic liar, a beggarly cheats, a swindler and a poltroon. He has committed every crime that does not require courage but order from his Foreign Bosses. He looked at foreign affairs through the wrong end of municipal drainpipe. In the depth of that dusty soul there is nothing but abject surrender. He is a sheep in a sheep's clothing. He delivered his speech with an expression of injured guilt. These beggars are not fit to manage a whelk stall let alone rule a big country like Ethiopia. Hence he will definitely be remembered as great a curse to this country Ethiopia in peace as he was a squalid nuisance in time of war. As the matter of fact, I did not listen to him for 20 long years all because I have children of my own who made sense much better. More or less, a squalid, backstairs, the 3<sup>rd</sup> rate Bush-Tack Politician is not a true politician but a gastronomic pimp. As thoroughly used up character, he sold himself and Ethiopia for the price of a sheepskin. To borrow a phrase, Mussolini is smiling from his grave and Alula shocked numb. They are profiting before lives. As Mark Twain said too, "it is strange the way the ignorant and inexperienced so often and so undeservedly succeed when the informed and the experienced fail. Sad!

These robots of filth have engineered the ultimate crime upon the Ethiopian people and Ethiopia. This is truly "the crime of all time". We must stop these Conspiracies, Treason and Madness here. We must fight this Fascism and unite to beat evil forces. And then, we must bring these perpetrators of all crimes to justice for their evil acts of genocide, crimes against humanity, the 1998 war crimes, embezzlement of public funds, plunder of Ethiopian economy, dismantling of the Ethiopian army, incurring the deaths thousands of our soldiers, and destruction of the Ethiopian constitution. We must also bring them to justice for imprisonments of Opposition Party leaders and Members, and violation of the rights of individual citizens, desecrating the Ethiopian flag, jailing the innocent and free press journalists for their political views, murdering innocent students and peaceful demonstrators and above all their unforgivable treasons. These have had the doubly unfortunate effect of diluting the expertise and lowering moral. What remained to be done to the Ethiopian opposition and 80 million oppressed Ethiopians if they once again, silenced Birtukan Mideksa: the leader of those oppressed people of Ethiopia and others who are demoralized as well? We must immediately unite to defeat all these evil forces.

Our country's election system remains deeply flawed, gerrymandered to support weak, unexperienced tribal candidates and government loyalists some of who were known to be crooks as Cadre Mulugeta Aserate Kassa who was involved in dozens of fraudulent activities in London before he was appointed as a Councillor in Ethiopian Embassy in Ireland? Why employ an established con-merchant who was unemployable in the UK? Meles talks and plays games on democracy, economic and corruption but remains one of the most nasty and oppressive leaders on Earth. The Prime Misery only emulated his predecessors, abolishing every national thing in 20 years on his power, launching legal attacks on independent journalists, harassing opposition parties and all its leaders particularly most of the Oromo parties and also jailing many thousands of opposition sympathisers. As a result, our country is cited as one of the world's worst oppressors, with punishments including beatings, rape and sumary disappearances to name few. We also must take responsibility for all these, and all the sufferings of the Ethiopian people.

It is recorded by Foreign Policy (FP) that officially named Meles to be one of the most embarrassing allies of America at No.4, outsmarted only by the likes of King Abdullah of Saudi Arabia and his likes, but still, Meles is supported by the US and European Union. Why, because American Empire operates through such sold out surrogates like the TPLFites, who enforce their devious will upon their people, by force regardless of their opposition. The 2010 election, in which Prime Minister Meles Zenawi's Regime claimed to have won a remarkable 99.6 percent of the vote, was the culmination of what Human Rights Watch called "the government's five-year strategy of systematically closing down space for political dissent and independent criticism. This also included attacks and arrests of prominent opposition figures, the shutting down of free press newspapers and assaults on journalists critical of the government, and doling out international food aid as an incentive to get poor Ethiopians to join the ruling party. Restrictive election laws made it nearly impossible to opposition parties to run, and conduct political meetings. That was some of what the recent EP Report said. Despite all these and other criticisms, anti-government newspapers are routinely harassed and also shut down. In addition to all sorts of attacks on domestic media and NGOs, the government also jammed broadcasts by Voice of America, Deutsche Welle in the run-up to the elections and then, the new private owned ESAT. As a result of all the above and many others too, the U.S. NGO Freedom House downgraded Ethiopia to "Not Free" for the first time in its annual Freedom in the World survey and reports this year. But no one gave huts at all.

The foolish U.S. Administration relied on the present unelected Ethiopian regime for the counter-terrorism assistance. Maintaining good relations with autocrats is of course, an unfortunate business but often necessary component of the delicate balancing act that became the U.S. foreign policy. That is why too, Obama does not want Mubarek to step down. But as the American Government now clearly learned once again this week from oppressed people around Arab countries, supporting strongmen for the sake of so-called regional stability can present risks of its own. The rhetoric is somewhat less enthusiastic under the Obama administration, the State Department strongly criticised the 2010 election, for instance, but the U.S. itself will continue to fund Ethiopia to the tune of \$583.5 million this year, despite evidences that the government is directly using this aid to suppress dissent. More embarrassing is America. Yes, America is the biggest bully and anti-democracy of the entire west because it sleeps in bed with such a tyrant. And because it wines, dines, flirts and sleeps with dictators hence never cared for us all. According to Human Rights Watch too, Ethiopia has intensified its repression of human rights over the past years, illegally imprisoning human rights defenders, bloggers, and anti-corruption campaigners and religious groups. Both our Christians, Muslims and all others, have faced repeated harassments in a daily basis. Police brutality and deaths under police custody are a commonplace in all regions. Like China too, Ethiopia filters of the Internet within the country, blocking objectionable websites and radio stations in the Diasporas and I suspect, they may also start requiring service providers and Internet Cafes to install monitoring softwares to track down all suspected users. But as the tiny Emperor has no clothes, let's catch him red-handed while his pant is down. Go on, use telephones, texts, letters, email and all methods to mobilize the people to beat evil forces. Meles is in a panic attack mood. Click here → [Meles has Tigray to go to you fool.](#)

- 1, I fully endorse the resolution passed by Ethiopians pro-Democracy activists but denounce
- 2, Elias Kifles illegal advices to shut down or even occupy the Ethiopian Embassy in DC, USA.
- 3, I fully endorse the recent call/suggestion made by Mr O Metho: Director of Solidarity (SMNE).
- 4, I also strongly urge all opposition groups and opposition parties to speak as ONE NATION.
- 5, The opposition politicians (in and outside Ethiopia) should form a Provisional Government.
